

FIELD CREW MEMBER/INSTALLER - JOB DESCRIPTION

Established in 2011, VersaPile Inc. has grown to be Manitoba and NW Ontario's leading helical pile contractors and a top 3 piling contractor in the Province. Experiencing steady growth, our projects are becoming more weighted towards high capacity helical piles in the industrial, agricultural, commercial and utility sectors.

Field Crew Installers are an important part of the VersaPile experience. They are friendly, and helpful while completing their work. They are good with customers and contractors. The Installer reports directly to the Assistant Operations Manager. The Installer works with the Operations Assistant Manager and the Field Crew Members to complete physical and material work related to client projects at project sites in Manitoba and North West Ontario. Installers operate the equipment required to install helical piles, and complete all required documentation to confirm pile install validity.

The Installer can act as the Supervisor on all project sites and around the VersaPile yard. They are responsible to ensure that the vehicles and equipment are in good working order and that all procedures are documented and safe.

The ideal candidate would be a self-motivator who enjoys both hands-on and machine construction work, is fond of working outdoors, is physically fit, and can work best with a small team. The position offers opportunities to lead, plus VersaPile is always eager to help you learn and advance within the company.

Basic Responsibilities and Duties

Installers do the following;

- Work 10 hrs days outside.
- Inspect the work vehicles and keep them organized and stocked for day's work.
- Load piles on trailers or trucks (must be in good physical condition).
- Install helical piles with heavy machinery to best practice standards (as trained by VersaPile).
- Will be required to drive truck & trailer combinations to job sites (full Class 3 license needed).
- Train and manage their Field Crew Members with dignity and care.
- Complete additional yard/shop duties when required
- Complete all required documentation for projects (recording reports, safety forms, etc.)
- Travel to any site location within Manitoba & NW Ontario (via company vehicle)
- Are eager to learn and grow in their responsibilities
- Any other tasks as directed by the Operations Manager/Assistant Manager

Qualifications and Skills

We require that our installers have the following;

- Experience with skid-steers and excavators
- Current Class 3 MB License.
- Physically Fit, suited for repeatedly lifting items
- High School Education
- Landscape Machinery operation experience an asset (not required)
