Company: Burns Maendel Consulting Engineers Ltd.  
903 Rosser Avenue  
Brandon, MB R7A 0L3  
[www.bmce.ca](http://www.bmce.ca)

TREK and BMCE has recently added material testing services to its Brandon operations to service the region. Our vision is to provide quality services, while maintaining a focus on employee development and client relationships.

The successful candidate will be a member of our field and laboratory services team working in partnership with TREK. Individuals who are enthusiastic about learning and growing in their young careers will be well suited to meet the expectations of this position.

Reports To: Manager of Field and Lab Services

Position: Materials Technician (2-3 positions)

Work Term: Beginning of May to October

Qualifications:

- Has completed one year of Civil Engineering Technology
- Strong communication skills
- Soils, concrete, and asphalt testing skills will be considered an asset
- Moderate computer skills and AutoCad / Geostudio skills will be considered an asset
- Willingness to work overtime and outside the City of Brandon
- Comfortable on construction sites
- Survey and geotechnical experience will be considered an asset
- Valid drivers' license

Primary Job Responsibilities:

- Conduct materials testing and quality control inspections
- Tracking material quantities on construction sites
- Assist senior staff in analysis, design, and contract administration
- Perform geotechnical instrumentation monitoring

Secondary Job Responsibilities:

- Survey assistant and other engineering related responsibilities
- Assist in administration of projects

Hours of Work: Minimum 8 hours per day. Remote site work up to 12 hours a day 7 days a week

Remuneration: \$21/hour to \$24/hour (bi-weekly)

Job Location: Based in the City of Brandon

Submit cover letter and resume to: [info@bmce.ca](mailto:info@bmce.ca) with *Materials Technician* as the subject.
