Job Details

Draftsperson / Project Coordinator

Full-time

934A Douglas St, Brandon, MB, Canada

Job Description

We're looking for an experienced draftsperson to join our team in our Brandon office. As a draftsperson at Crane Steel Structures, you are responsible for the planning, conception and execution of drawings for new and remodelled facilities using Computer-Aided Design (CAD) technology. The successful candidate will be able to ensure that designs are prepared in accordance with industry standards and will be responsible for ensuring that all projects are completed in a timely fashion. Equally important, we're looking for someone who is looking for an opportunity to grow professionally as the role could transition to a project coordinator with the right candidate. We offer a competitive salary structure with health benefits, as well as an employee share purchase plan. Salary will be discussed further during the interview process and is commensurate with any successful candidate's experience. Crane Steel is a family-owned business operating in Manitoba since 1981 specializing in design-build metal building systems. We have an experienced team of in-house design and drafting services, estimators, project managers, site supervisors and our own erection crews. Please email your CV to info.bdn@cranesteel.com or, better yet, pop into our Brandon office and drop it off in person.
