

Operating Shift Engineer

Facilities

Full-Time, Regular

Brandon, MB

Comp #52-24/25

Salary: \$61,490.81 to \$74,776 annually (\$29.56 to \$35.95 hourly)

About Assiniboine:

For over 60 years, Assiniboine College has been providing exceptional learning experiences, while transforming lives and strengthening Manitoba through applied education and research. Our future success rests on our ability to develop a sustainable Thriving Workforce that is unified in moving forward for the benefit of the college and Manitoba. Our culture is built on our principles for continued success: Creativity, Collaboration, and Courage.

Position Overview:

The incumbent will operate and maintain a Steam Plant at Assiniboine College, in compliance with the Power Engineer Act, Provincial Codes and acceptable best trade practices. In the absence of the Facility Manager, the incumbent may be responsible for the entire physical plant operation. The Operating Shift Engineer can be the initial contact in some requests.

Key Responsibilities:

- ▶ Operating, safe care and control of a Steam Plant in accordance with the Power Engineers Act; performing the daily Guarded Status checks, annual inspections for the boilers, chillers and auxiliary equipment in order to ensure they operate safely and efficiently.
- ▶ Records and reacts to (any abnormalities) all readings from meters and gauges for steam production, fuel consumption, water consumption and power conservation in the daily engineer's log sheet and enters the daily activities at the complex into the Logbook.
- ▶ Responsible for the water testing and treatment; also, for the testing and treatment of the heating and cooling systems throughout the complex.
- ▶ Ensures daily inspections of hot water temperatures, heat pumps, circulating pumps, air compressors and auxiliary equipment in the complex; responsible for the scheduled testing and recording of readings for the Stand-by Generator and auxiliary equipment.
- ▶ Responds to Fire Alarms, traces source of alarm and takes the necessary action needed to reset the system. Also, assists in the performance of regular preventative maintenance to the Fire Alarm Systems.

Qualifications:

- ▶ A valid 4th Class Power Engineering Certificate recognized by the Office of the Fire Commissioner.
- ▶ A valid Class 5 Manitoba driver's license and the ability to travel within Manitoba.
- ▶ Experience in operating a Steam Plant and experience in the maintenance and repair of a heating plant and its auxiliaries.
- ▶ Experience with associated building trades, building operations, maintenance and repair.
- ▶ Experience with computers (including Microsoft Office & related software).
- ▶ Experience with Computerized Maintenance Management System (CMMS) preferred.
- ▶ Experience with HVAC operations, life safety systems and DDC operations.
- ▶ Must be able to work shift work, weekends and holidays.
- ▶ May be required to be on call.

This competition will remain open until the position is filled.
