Civil Engineering Technologists - Summer Student Position

BMT Materials Testing Ltd. (BMT) was established by Burns Maendel Consulting Engineers and TREK Geotechnical to provide essential materials testing services to the Westman region. We are an innovative and entrepreneurial organization built on the expertise of our founding partners. We are committed to attracting and retaining the best employees to ensure we meet our clients' needs.

BMT is seeking summer students for 2025 employment in Brandon, MB and the surrounding area. As a contributing member of our team, you will enjoy a fast paced, friendly environment that is collaborative and energized. Self-motivation, teamwork, and the ability to work within time constraints are essential to this position.

The successful candidate will be a core member of our field and laboratory services team and will work closely with BMT's manager of the field and material testing laboratory unit. Individuals who are enthusiastic about taking a leadership role in their careers will be well suited to meet the expectations of this position.

What will a day at BMT look like:

- Working as part of a team your mornings will include a project meeting to establish priorities for the week. Open Transparent communication is essential at BMT.
- Your responsibilities will include:
 - Conduct materials testing and quality control inspections
 - Tracking material quantities on construction sites
 - Assist senior staff in structural/civil analysis, design, and contract administration, as candidates capabilities permit
 - Perform geotechnical instrumentation monitoring
 - Survey assistant and other engineering related responsibilities
 - Assist in administration of projects

Qualifications and Requirements:

- Has enrolled in a Civil Engineering Technology Program
- Strong communication skills
- Strong computer skills and AutoCad skills will be considered an asset
- Willingness to work overtime and outside the City of Brandon
- Soils, concrete, and asphalt testing skills will be considered an asset
- Comfortable on construction sites
- Valid drivers' license

Work Location: Brandon, Manitoba
Work Term: May 1, 2025 to late October 2025
Hours of Work: Minimum 8 hours per day, with potential for overtime.
Remuneration: \$22.00 - \$24.00 per hour, paid Bi-Weekly

Application Deadline: Open until positions are filled

Submit cover letter and resume to: lab@bmtlab.ca with *Summer Student* as the subject.

We thank all who apply, but only those considered for an interview will be contacted
