### About Assiniboine:

For over 60 years, Assiniboine College has been providing exceptional learning experiences, while transforming lives and strengthening Manitoba through applied education and research. Our future success rests on our ability to develop a sustainable Thriving Workforce that is unified in moving forward for the benefit of the college and Manitoba. Our culture is built on our principles for continued success: Creativity, Collaboration, and Courage.

### Position Overview:

Under the direction of Director of Facilities, this position is responsible for the safe and efficient operation of the power plants and all ancillaries for Assiniboine College. The incumbent is also responsible for the supervision of power engineers, oversees all related budgets and expenditures, capital and maintenance management all while ensuring excellent client/customer service relations are maintained. This position, along with the Facility Manager and/or Operations Manager are the main points of contact for service requests. This position will at times fill in for the Director of Facilities on key projects or initiatives.

### Some Key Responsibilities:

- ▶ Inspects the work of contractors and/or trades staff to ensure compliance with specs and codes
- ▶ Collaborate with the campus development team based on their project requirements.
- Develops and contributes to maintenance replacement plan utilizing life cycle management techniques and prioritizes projects identified.
- ▶ Prepares and manages the budget for all power plant operations and auxiliary equipment.
- ▶ Ensures programs are administered within budget guidelines, and in compliance with purchasing and invoicing procedures.
- ▶ Responsible for maintenance related projects.

### Some Key Qualifications:

- ▶ A valid minimum 2nd Class Power Engineering Certificate recognized by the Office of the Fire Commissioner.
- ▶ Extensive experience is required in operating a power plant and in the maintenance of steam plant operations and Ancillaries.
- ▶ Extensive experience in Heating Ventilation and Air Conditioning (HVAC), Direct Digital Controls (DDC), Pneumatic Controls, Chemical testing of water, Water Softeners, standby automatic power units, chillers, air compressors, heat exchangers, steam traps, mechanical seals, plumbing, piping, pumps, electrical and fire alarm systems while staying within all confines of all applicable codes/regulations & acts.
- ▶ Must possess a Class 5 Driver's License in good standing, ability to use own vehicle, ability to travel within the Province of MB.
- ▶ Must have extensive supervisory experience.
